SUPPLEMENTAL REPORTING

The Illinois Uniform Crime Reporting (I-UCR) Program requires agencies to report domestic related offenses, attacks against school personnel, and requests agencies to voluntary report crimes against children. These three reporting elements compose supplemental reporting and are reported on a monthly basis using the supplemental data collection form.

Domestic Related Offenses

Reporting domestic related offenses is mandated by Chapter 20 of the ILCS, 2630/5.1. Domestic related offenses are defined as offenses committed by family or household members. Family or household members includes spouses, former spouses, parents, children, stepchildren, and other persons related by blood or by present or previous marriage, persons who share or formerly shared a common dwelling, persons who have or allegedly have a child in common, persons who share or allegedly share a blood relationship through a child, persons who have or have had a dating or engagement relationship, and persons with disabilities and their personal care assistants or care givers outside the context of an employee of a public or private care facility.

The following are the elements to be reported for each domestic related incident: case number, date and time of occurrence, offense(s), victim(s) age, sex, race, offenders(s) age, sex, race, injury indicator, weapon, disposition, and relationship code. Codes for each field are provided and defined on the supplemental data collection form.

Reporting Month and Year (required field)

- Report the month and year the incident occurred, not the month and year the incident was reported.
- If the month and year of occurrence is unknown, select the most reasonable month and year based on available facts.

Case Number (required field)

- Agency-assigned case number.

Date of Occurrence (required field)

- Indicate the calendar date, not the day of the week.
- Report the date the incident occurred, not the date the incident was reported.
- If the date of occurrence is unknown, select the most reasonable date within the month.

Time of Occurrence (required field)

- Denote in military time.
- If the time of occurrence is unknown, select the most reasonable time within the day.

Offense (required field)

- A domestic relationship must first be established between the victim and offender before an incident is reported.
- Report only offenses identified in the I-UCR offense code table.
- Report only those offenses that have occurred between a victim and offender where the domestic relationship has been established.
• Subsequent offenses such as obstructing justice, resisting/obstructing a police officer, driving under the influence, wanted on warrant, are NOT reported as they did not occur between the victim and the offender.
• Every offense occurring between a victim and offender where a domestic relationship has been established must be reported, including assault, theft, robbery, intimidation, criminal sexual abuse and assault, violation of order of protection, etc. Offenses reported are NOT limited to domestic battery and/or domestic dispute.
• If the offender is charged with multiple counts of the same offense involving the same victim, only one offense is reported.
• Ensure that each offense which is reported is a separate, distinct crime, rather than just part of another offense. Example: Every battery includes some type of assault; but, because the assault is an element which makes up the crime of battery, only the battery is reported. Do not report both a domestic battery and a battery, nor a domestic dispute, and a domestic battery.
• Domestic disputes must be reported, but only when no additional offenses occur within the incident.

Attempted (NOT REQUIRED)
• Report “ATTEMPTED” if the offense was not carried out to completion.
• Do not report an attempt at an offense when the actions result in the commission of a different offense. Example: A sibling attempted to stab a second sibling with a knife. Though attempted aggravated battery occurred, the offense should be scored as an aggravated assault. Use of “attempted” should be limited in crimes against persons to the offense of criminal sexual assault, and crimes against property.

Victim(s) (required field)
• Report every victim within a domestic related incident.
• A victim may also be the offender in the same incident.
• Report the victim’s age.
  o Report the victim’s age in years; do not report 01-98.
  o If the victim is under one year of age, report one of the three codes for this age group (NN – under 24 hours old, NB – 1 to 6 days olds, BB – 7 to 364 days old)
  o Report “00” if the age of the victim is unknown.
  o Report “99” if the victim is over 98 years of age.
• Report the victim’s sex.
  o Report male or female.
  o The sex of the victim cannot be reported as unknown.
• Report the victim’s race.
  o Only the approved NCIC race codes of Asian/Pacific Islander, Black, Hispanic, American Indian/Alaskan Native, White and Unknown are to be reported.
  o There is no reporting code for a multiple-race victim. Instead, one of the NCIC race codes must be selected in reporting a multiple-race victim.

Offender(s) (required field)
• Report every offender within a domestic related incident.
• An offender may also be the victim in the same incident.
• Report the offender’s age.
  o Report the offender’s age in years; do not report 01-98.
  o Report “00” if the age of the offenders is unknown.
• Report the offender’s sex.
  o Report male or female.
  o The sex of the offender cannot be reported as unknown.
• Report the offender’s race.
  o Only the approved NCIC race codes of Asian/Pacific Islander, Black, Hispanic,
American Indian/Alaskan Native, White and Unknown are to be reported.
  o There is no reporting code for a multiple-race offender. Instead, one of the NCIC
race codes must be selected in reporting a multiple-race victim.

Injury Code(s) (required field)
• Report up to three injury codes per victim.
• If multiple offenses between the victim and the offender are reported, only report the
injury with the offense during which the injury occurred. Example: An ex-husband is
arrested for home invasion and domestic battery after breaking in to his ex-wife’s
residence and striking her several times resulting in numerous injuries. The injury
code(s) and weapon(s) would be reported with domestic battery offense. An injury code
of None (N) and weapon code of None (99) would be reported with the home invasion
offense.
• If an injury is reported with an offense, the weapon code cannot be None.

Weapon Code(s) (required field)
• Report up to three weapon codes per victim.
• A weapon code of None (99) can only be reported when the injury code for the offense
reported is None (N).
• Do not report the weapon with an offense that did not incorporate use of the weapon in a
multi-offense incident.

Disposition Code(s) (NOT REQUIRED)
• A juvenile disposition code is to be reported when the offender is under 17 years of age.
• An adult disposition code is to be reported when the offender is 17 years of age or older.
• Disposition is NOT a required field. Adjustments reporting the disposition may be
submitted once known, but are NOT required.

Relationship Code(s) (required field)
• Identify the relationship as it exists between the victim and the offender, not the offender
to the victim.
• The following relationship codes do not identify a domestic relationship and are NOT
valid submissions: friend, acquaintance, neighbor, babysittee, babysitter, employee,
stranger, relationship unknown, teacher, school administrator and other school personnel
relationship codes. The use of these codes is limited to the reports of crimes against
children and attacks against school personnel.

ADJUSTMENTS
• Reporting is based on the results of the investigation of the originating agency. An
offense could be submitted that is determined in subsequent months of investigation to be
unfounded. A supplemental collection form must be submitted, indicating the report is
an “adjustment” rather than “initial” report. Complete all fields, and below the data
indicate “UNFOUNDED, DELETE RECORD” for a single-offense incident. Indicate
“DELETE OFFENSE XXXX” if only one offense is to be deleted in a multi-offense
incident.
• Adjustments are also submitted to correct an error in a field(s) of a previously submitted incident. A supplemental collection form must be submitted, indicating the report is an “adjustment” rather than an “initial” report. Complete the Reporting Month and Year, Case Number fields, followed by the field(s) requiring modification. If your current RMS provides an adjustment form with all fields completed, please highlight or circle the field(s) requiring modification.
Crimes Against Children

Reporting crimes against children is voluntary as it is NOT mandated by state statute. Data is collected to aid the effort in researching and evaluating the issues of crimes committed against children. All offenses committed against children 16 years of age and younger are included in this category.

The following are the elements to be reported for each incident where a crime against a child has been committed: case number, date and time of occurrence, offense(s), victim(s) age, sex, race, offenders(s) age, sex, race, injury indicator, weapon, disposition, and relationship code. Codes for each field are provided and defined on the supplemental data collection form.

- If the offender is charged with multiple counts of the same offense involving the same victim, only one offense is reported.
- Ensure that each offense which is reported is a separate, distinct crime, rather than just part of another offense. Example: Every battery includes some type of assault; but, because the assault is an element which makes up the crime of battery, only the battery is reported. Other school personnel includes: teacher’s aides, bus drivers, hall monitors, custodians, cafeteria workers, etc). Reported incidents are not limited to those occurring on school property. Any attack against school personnel must be reported when a student physically attacks or threatens to attack a member of the school personnel when the victim is operating in an official capacity in and/or outside school parameters.
