

**SECTION IV -
DRUG CRIME ARREST DATA**

Drug Crime Arrest Data

The data presented in this section indicates the state and county totals for criminal drug arrests. The information includes the number of arrests for violations of the Cannabis Control Act, violations of the Controlled Substances Act, violations of the Hypodermic Syringes and Needles Act, and violations of the Drug Paraphernalia Act. State totals include arrests made by police departments, sheriffs' offices, colleges and universities, and the Secretary of State's Office. Since the Secretary of State's Office has districts that have multi-county jurisdiction, they are not included in the county totals.

This section utilizes the most recent complete population statistics available from the U.S. Bureau of the Census. The 1998 and 1999 arrest data for this section were calculated using the 1998 estimated population statistics which were obtained from the U.S. Bureau of the Census, released 1999. Population figures were also obtained from a special census received from the U.S. Bureau of the Census or from the reporting agency.
